The **Sél** combo is used to select the file for which you wish to display the tracked changes.

Creations are recorded (C), as are modifications (M) and deletions (S).

Here, invoice 37 has undergone 4 successive modifications (M) since its creation (C), appearing in the

1 zone.

Clicking on a modification date-time in this zone displays the details in the 2 zone, item by item: here the amounts have been modified.

The **Detail** button displays the document lines (this button is not displayed for entries).

History list (details)

The screenshot shows a software window titled "Détail des lignes de FACTURE n° 14" with a sub-header "Historiques des modifications (détails)". It contains a main table with columns: ID, Description, Création, par, St, en date du, par. Two rows are visible: ID 23 "Cours de cuisine" and ID 17 "Produit à lot". Below this is a detailed view for a modification on 01/11/2025 at 01:20:56:41 by EM (Eléonore MAROLEX). This view includes a table with columns: Ops, Auth, Création, par, Rubrique, Description, Avant, Après. The modification details are as follows:

Ops	Auth	Création	par	Rubrique	Description	Avant	Après
M	🔒	01/11/2025 01:20:56:418	EM	QUANTITE	Quantité	2	4
C	🔒	01/11/2025 01:20:46:944	EM	MTT_HT	Montant HT	50	100
				MTT_TTC	Montant TTC	60	120

Here we see that line 79 of invoice 37 has undergone a modification (M) since its creation (C): the quantity of the item has changed from 3 to 4, modifying the amounts accordingly.

Reducing archive size

Records cannot be deleted from this file.

Also, for companies making numerous modifications to parts that may include images, it can become voluminous.

The database's [minification](#) program can then be used to delete records that have exceeded the legal archiving period (depending on your country), or to delete items with no accounting implications

(images or comments).
