# Rebooking entries

Fix Me! A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the forum.

This screen allows you to reallocate entries en masse, from one account assignment to another.

## Using the screen

***Access :*** *Tools → Administration → Mass data processing → Accounting → Re-assign entries*

Indicate the date range you wish to process in the **Between And** fields.

Then select the account assignment to be taken into account and the target account assignment.

At the end of processing, any entry with a date within the specified range will move from imputation 1 to imputation 2.

If no entries remain in imputation 1, the imputation can be deleted.
