

Products-Model

A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the [forum](#).

Gestan allows you to manage :

- model products
- [compound products](#) (or works in certain trades)
- [equivalent products](#).

Model products are groupings of products that you usually sell together: for example, if you sell wines, you could make a model product that you'd call a "Discovery Pack", made up of a bottle of white, a bottle of red and a bottle of rosé.

When you invoice your customer for a "Discovery Pack", the invoice will have three lines, one for each bottle, as opposed to the composite product, with which the invoice would only have one line.

How to use the screen

Access : *Products* → *Compound products*

The screenshot shows a software window titled 'Table des produits modèles' with a sub-header 'Produits-modèles'. It contains two data tables. The top table has columns: Id, Code produit modèle, Libellé produit modèle, and Famille. The first row shows '1', 'PLM', 'Panier de saison (légumes)', and 'Presta MO'. To the right of this table are buttons: 'Nouveau +' (with a circled '1'), 'Modifier', and 'Supprimer'. The bottom table has columns: Code produit, Libellé, Quantité, PU vente HT, TVA, PU vente TTC, Mtt HT, and Mtt TTC. It lists three items: 'PDT-BIN' (Pomme de terre Bintge), 'CAR1' (Carottes catégorie 1), and 'PRX' (Poireaux tête blanche). To the right of this table are buttons: 'Nouveau +' (with a circled '2'), 'Modifier', and 'Supprimer'. At the bottom right of the window is a 'Fermer' button. A 'Somme' row at the bottom of the second table shows '19,00' and '22,80'.

At the top, the **New 1** button is used to create a new product model.

At the bottom, the **New 2** button is used to add a product to the product-model.

Quantities can be modified directly in the base (or via the contextual menu).

Bottom table context menu

The screenshot shows a contextual menu with four items: 'Monter la ligne' with a blue up arrow icon and 'Ctrl+Flèche haut' as a keyboard shortcut; 'Descendre la ligne' with a blue down arrow icon and 'Ctrl+Flèche bas' as a keyboard shortcut; 'Modifier la quantité' with a grey pencil icon; and 'Supprimer tout' with a red minus sign icon.

The contextual menu allows you to move up or down the rows.
