Generic links

Fix Me! A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the forum.

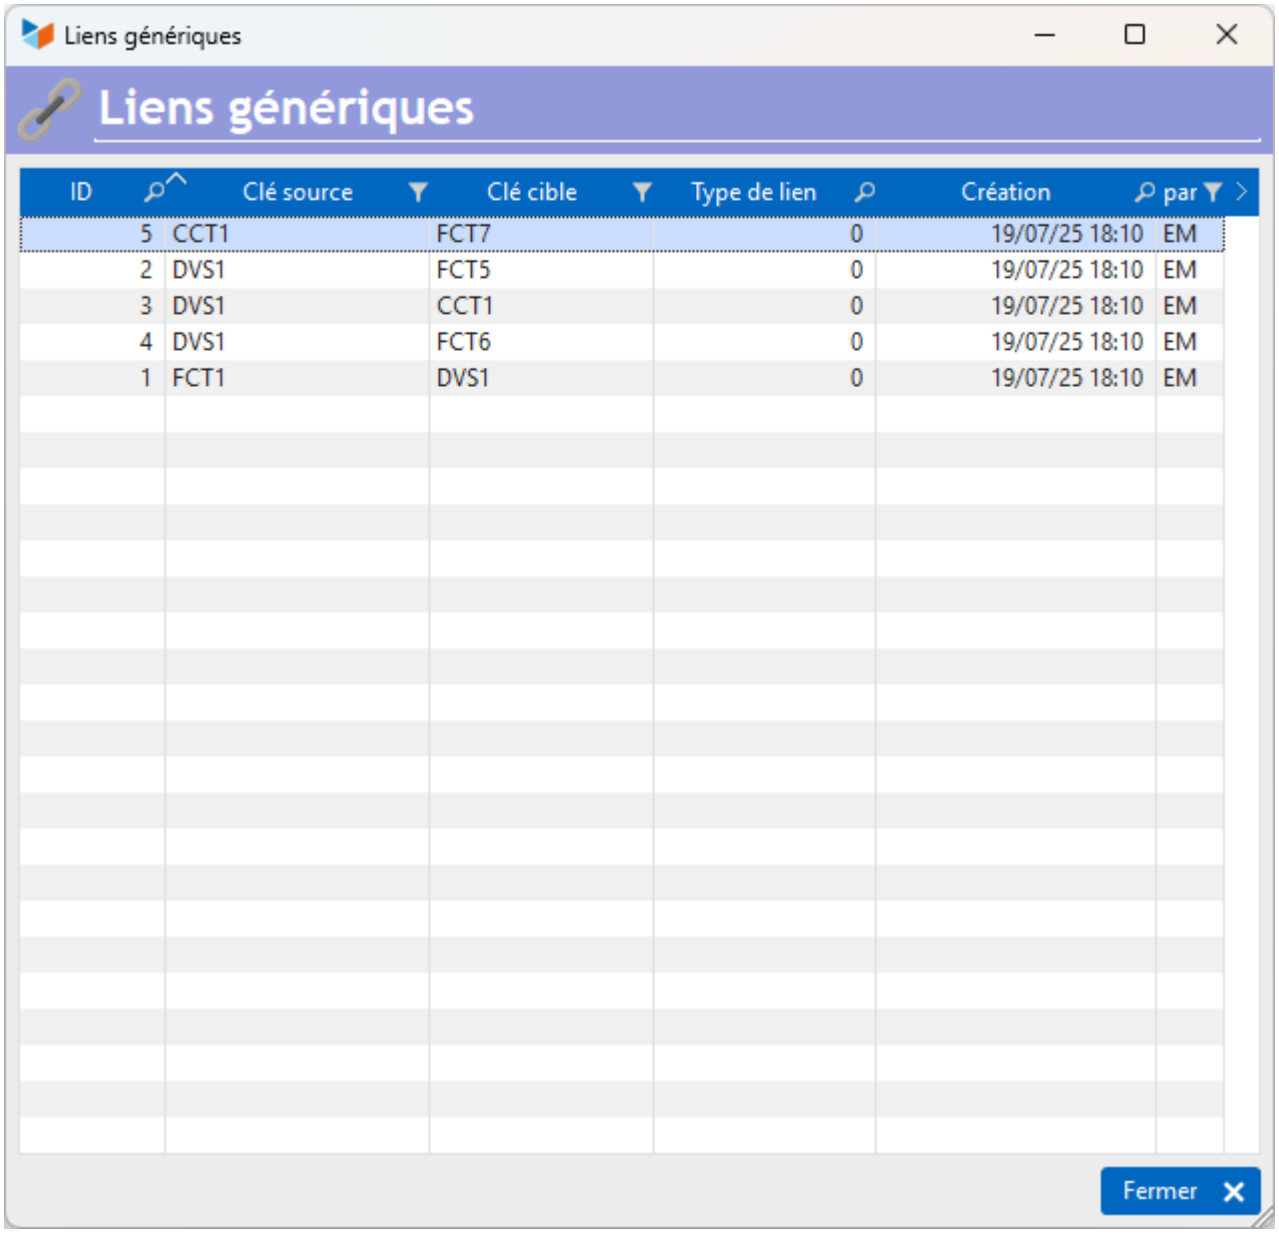

This screen is used infrequently, for control or administration purposes.

It is used to display existing links between two entities, mainly parts.

For example, it is through generic links that Gestan records that such and such a quote gave rise to such and such an invoice, or that such and such an invoice gave rise to such and such a BL.

Using the screen

***Access : **Tools → Administration → Repository → Generic links*

In this example, we can see that invoice 1448 was generated from quote 130.
