

Monthly results

A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the [forum](#).

This screen shows monthly results for all types of documents (quotations, orders, invoices, etc., on both the customer and supplier sides).

How to use the screen

Access : *Statistics* → *Monthly results*

The screenshot shows the 'Monthly results' window with the following data table:

Month/Year	Product name	Family	Qty	Amount ET	Amount IT	Discount
03/2024	March 2024		2,00	200,00	240,00	0,00
MO01	Labor rate 01	Presta MO	1,00	100,00	120,00	0,00
PROD01	Product 01 from my company	Products	1,00	100,00	120,00	0,00
TOTAL	Total period from 01/01/2024 to 31/12/2024		2,00	200,00	240,00	0,00

The **Data** tab shows the list of part lines, presented by month.

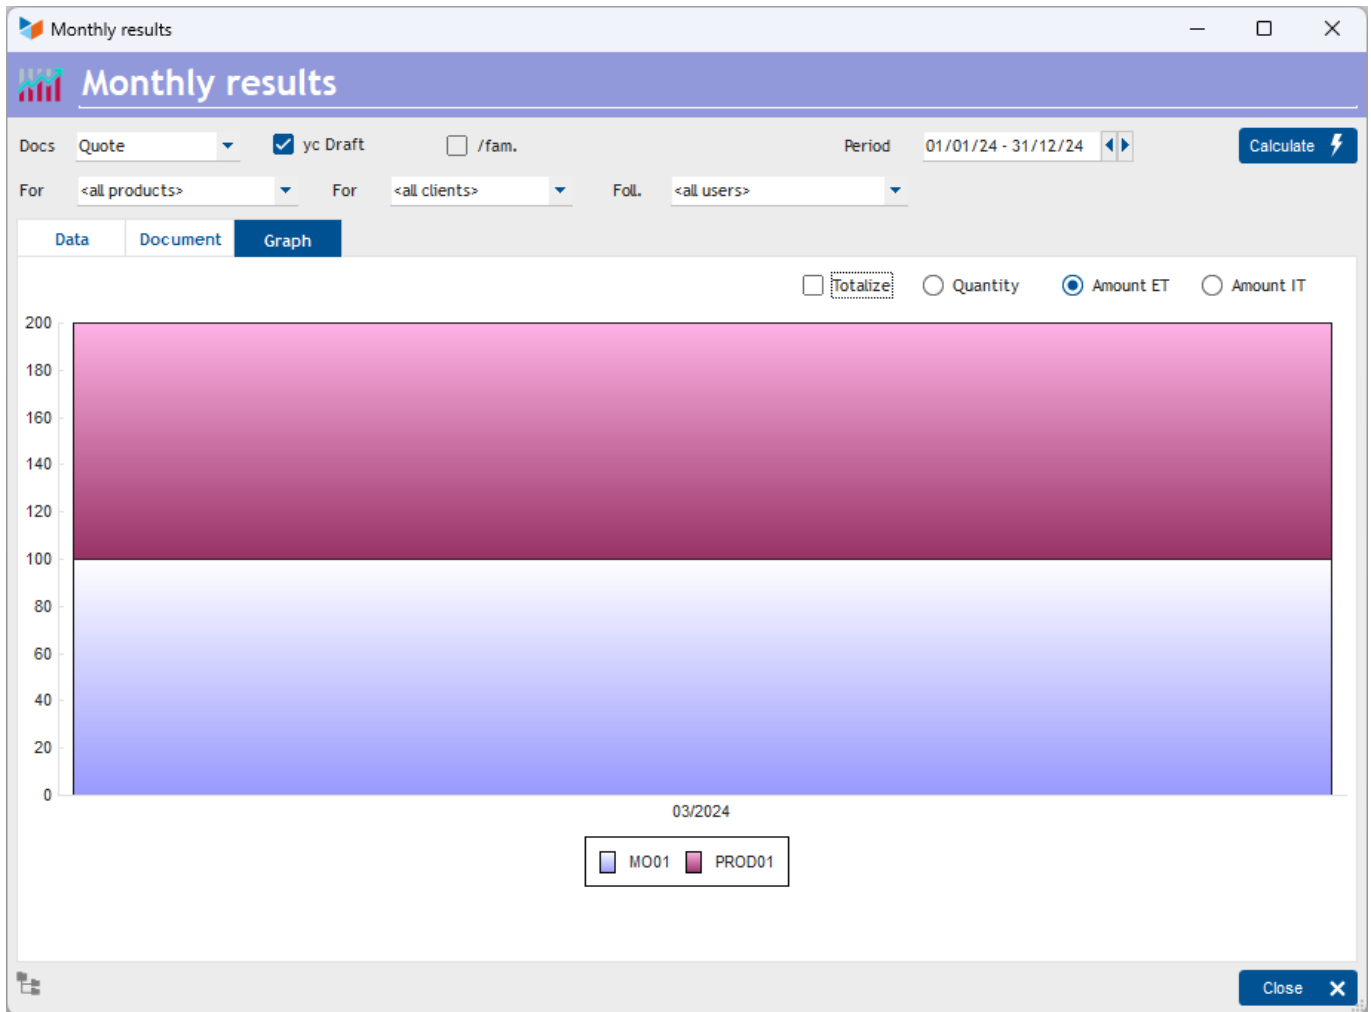

The screenshot shows a software window titled "Monthly results". At the top, there are navigation icons and a title bar. Below the title bar, there is a header area with a logo and the text "Monthly results". Underneath, there are several filters and controls: "Docs" set to "Quote", a checked "yc Draft" checkbox, an unchecked "/fam." checkbox, a "Period" dropdown set to "01/01/24 - 31/12/24", and a "Calculate" button with a lightning bolt icon. Below these are "For" dropdowns for "<all products>", "<all clients>", and "Foll." set to "<all users>".

The main area has three tabs: "Data", "Document" (which is selected), and "Graph". Below the tabs is a table with the following columns: "Month/Year", "Date", "Nature", "Amount ET", "Amount IT", and "Discount". The table contains the following data:

Month/Year	Date	Nature	Amount ET	Amount IT	Discount
03/2024	15/03/24	Proposal V1	200,00	240,00	0,00
TOTAL			200,00	240,00	0,00

The table is followed by several empty rows. At the bottom right of the window, there is a "Close" button with an 'X' icon.

The **Document** tab shows the list of parts, sorted by month.

Finally, the **Graph** tab presents this data in graphical form.

The **/fam** checkbox lets you group data by product family, for a more synthetic analysis.
